Our professional staff, led by President Shane Samole, brings you some of the most innovative products in the marketplace. We want to know how we can help you meet your business goals. Please call us today. And be sure to let us show you around the next time you're in Miami.

"We make you think" has been our motto since 1992, when we first opened our doors in small rented offices. Back then, we concentrated on electronic chess. The new century sees us in corporate headquarters of our own, offering a wide range of unique and appealing products.

Our growth is a result of the commitment we feel to bringing our customers innovation—exciting, fast-selling products made to the highest standards of excellence. What you won't see in this catalog are the same old products that seem to be in every other glossy booklet on your busy desk.

Excalibur, King Arthur's legendary sword, was magic. The products in this catalog can't claim the secret science of his court wizard Merlin, but sometimes the patented technology we've developed may make it seem that way.

Excalibur's eye-catching new headquarters, incorporating the official World and US Chess Hall of Fame and Sidney Samole Chess Museum, stands next to the Florida Turnpike in Miami.

World Chess Hall of Fame Sidney Samole Chess Museum

Enlightening Our Community

Despite our new product diversity, Excalibur remains the center of commercial chess. Both the World Chess Federation (FIDE) and the US Chess Federation sanction a special wing of our Miami headquarters as the official home of the new World Chess Hall of Fame and Sidney Samole Museum. Every year, each of these two official governing bodies of chess will induct "Hall of Fame" players in a ceremony similar to those held at the Baseball and Football Halls of Fame.

Visitors from all over the US and all over the world will pass through our 45-foot-tall "castle" on their way into a high-tech museum that tells both the history and current events of chess. A series of kiosks house computer displays and interactive chess programs. An inclined "Walk of Fame" displays photos and memorabilia of the most honored names in the game. The walk ends in a theatre auditorium that features films about chess. A series of glass display cases hold some of the most prized pieces of chess history, from ancient sets to the first computers. Contemporary figures from all walks of life who play chess regularly, such as singer Sting and heavyweight boxing champ Lennox Lewis, are also featured.

Suitable for all ages, the World Chess Hall of Fame and Sidney Samole Museum has already been featured in major newspapers, magazines, and even in encyclopedias. Be sure to drop in whenever you're in town!

GrandMaster

Excalibur Electronics brings you an electronic chess masterpiece—the Grandmaster! "Grandmaster" is the highest title awarded to human players. Excalibur's Grandmaster earns its name by capturing the essence of top-level chess competition not only in its powerful play, but in its look and feel. Its tournament-size vinyl playing surface shows off a meticulously crafted set of official pieces, weighted so they won't tip over during a game. And Grandmaster features some of the most technologically advanced chess features in the world. The result—a highly sophisticated but easy-to-use competition chess set that combines classic design with 21st century technology

Enhanced Teach Mode
This mode enables each player to track their scores as well as receive hints.

Relive World's Greatest Chess Matches

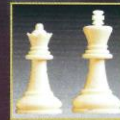

Equalizer
Allows beginners to play on par with advanced players through the assistance of the computer.

Two Large Information Packed LCD Displays

Feather-Touch Auto Sensory Move Entry System
Unique durable vinyl surface with magnetic sensors to accurately track your every move.

Tournament-Sized Chess Pieces
Official-sized, weighted chess pieces with 3.75" king.

- World's first auto sensory board with actual vinyl surface used in tournament play
- Super strong chess program capable of beating over 99% of all chess players. Estimated rating of 2200 master-strength
- 2 Large LCD Displays with Dual Chess Clocks and Countdown Timer shows your every move, hints, warnings, and scores.
- 100 levels of play, plus 5 teach modes, 32 book opening trainers, and 32 great games
- 1 or 2 player mode with scoring, hints and analysis
- Saves game in memory for future use
- Powered by 4 AA batteries or optional A/C adapter

ELECTRONICS

ELECTRONIC CHESS

Igor

I Talk

With its speaking vocabulary and exciting sound effects, Igor will provide hours of entertaining chess. You'll hear horses gallop and swords clang. Advanced teaching mode helps you improve. Then challenge Igor again to see the results. Features include 100 levels of play, Teach Mode and Chess Timer.

- Large Speaking Vocabulary with Exciting Sound Effects
- 100 Levels of Play
- Chess Clock with Countdown Timer
- Saves Game in Memory
- Magnetic Board & Pieces
- Requires 4 AA Batteries or Optional A/C Adapter

- Unique 7-digit LCD allows player to play with or without chess pieces
- Over 1000 Level Setting Combinations with a strength rating of 1750
- Position Score Evaluation
- Rating Feature: Will give player his own personal rating after each game and store it in memory to track improvement. Keeps a tally of wins, losses and draws
- Book Opening Trainer: Will teach players the most popular openings by name, i.e., Ruy Lopez. Unique scoring feature tracks learning and progress by awarding points for each correct move
- Checkmate Trainer: Teaching feature tutor players in solving checkmate problems
- 32 Greatest Games: Replay the greats games in history. Plus follow along with complete grandmaster annotation in your manual.
- Threat Warning Indicator: Warns when a major piece is under attack
- Over 500 hours of play with 3 AA batteries
- For the accomplished chess player, provides a fun way to play Blindfold Chess

King Arthur

Electronic Chess with super large LCD display. Unique display will show entire chess board and pieces, simulating the same play action as the full-size board.

Excalibur Igor & King Arthur – Page 6

LCD CHESS

King Master II

2 in 1 Electronic Chess & Checker Game

Double your fun with two games in one! Now you can enjoy an exciting game of chess or checkers in one electronic game. With an even larger interactive LCD display, over 72 levels of chess and 16 levels of checkers, the Kingmaster II is challenging and entertaining for players of all strengths. Our exclusive five-step teach mode helps anyone improve his or her game! Includes an LCD window, piece-storage compartment, and magnetic board.

- 449 level setting combinations
- Estimated rating 1650
- Extra-Large LCD display shows the entire set-up and moves
- Take-back feature
- Chess timer
- Magnetic chess pieces
- Piece storage compartment
- Pre-programmed opening strategies
- Battery operated using 4 AA batteries, optional A/C adapter
- Saves game in memory

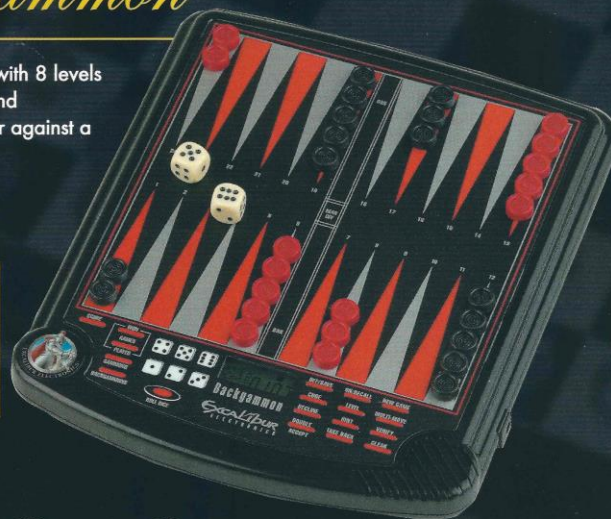

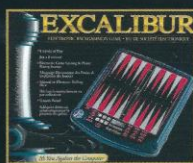

911E2

Electronic Backgammon

This sophisticated electronic backgammon set comes with 8 levels of difficulty, an internal dice roller, a sensory board and convenient memory-save. Play against the computer or against a friend. Either way, you'll have hours of fun.

- 8 levels of play
- Doubling cube feature
- Saves game in memory
- Player rating system
- Manual or electronic dice rolling
- Magnetic sensory board

366E2

Crusader

Crusader offers both electronic chess and checkers in a set that's larger and easier to see than standard travel units, but still fully portable! At 6.5" square, Crusader fits easily into briefcase or travel bag. Magnetic pieces, rather than pegboard men, hold the armies in place.

- 2 Games in One
- 449 Level Settings
- Extra-Large LCD Display Shows the Entire Set-Up and Moves
- Excalibur's Exclusive Teach Mode. Teaches Beginners & Challenges Advanced Players
- Large LCD Display Shows Every Move
- Magnetic Sensory Chess Board
- Piece-Storage Compartment

903E

Squire

Portable Electronic Chess Game

Challenge yourself to a game of chess with this portable computer game. The game includes peg-style chess pieces, a piece-storage compartment and snap-on storage lid. With an estimated strength level of 1650, the Squire with teach mode helps beginners and challenges advanced players.

- 449 level setting combinations
- Estimated Rating 1650
- Peg pieces and board
- Extra-Large LCD display shows the entire set-up and moves
- Take-back feature
- Piece-storage compartment
- Pre-programmed openings strategies
- Battery-operated; uses 3 AAA batteries
- Saves game in memory

Includes SNAP-ON Cover

INNOVATIONS

ROLODISC

Find the CD You Want Fast!

CDs and jewel cases everywhere! In the car, in the house, in your living and bedroom, with the kids or in your backpack. Why can't CDs be easier to store and find?

Excalibur's motorized Rolo-Disc does the trick. Whether you're storing music or software, it's the one product that makes it possible for you to see and find the CD you're looking for, quickly and easily!

Place it on the floor or on your desktop. Press a button either with your foot or finger, and watch your CDs flip by automatically! You clearly see both the front and back of each CD.

Want to start looking from the other side? Press reverse. Stores and displays up to 75 CDs.

Comes in three transparent color combinations:
orange/white (CD75O)
purple/white (CD75P)
green/white (CD75G)

Easy access to your favorite CDs

Press a button to control speed and rotate CDs in either direction

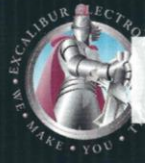

Black/Silver (CD75B)

Daisy-chain up to three Rolo-Discs to store up to 225 CDs - and still find the one you want easily!

EXCALIBUR ELECTRONICS INNOVATIONS

PROJECTION ALARM CLOCK

Unique Projection Clock Provides A Clear View Of The Time and A Gentle Night Light – With Just A Clap Of Your Hand

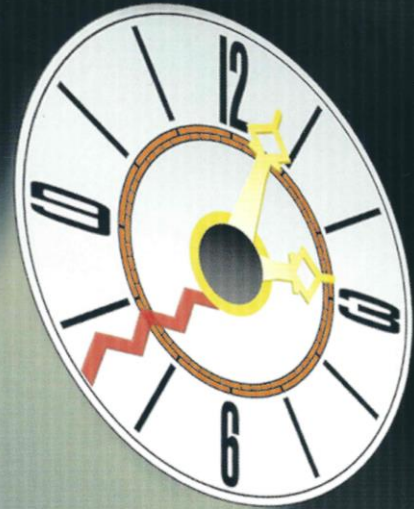

A versatile solution to two problems everyone experiences. You're in bed and you want to check the time, or you just need a little light. Don't twist, turn, or set up to squint at a small bedside alarm clock—just clap your hands to see a gentle clock display, complete with moving second hand, on your wall or ceiling. You can even leave our projection clock on all night or turn it off with another clap.

Use the built-in easel on back to quickly adjust the angle and view of the clock face. Make it up to four feet in diameter!

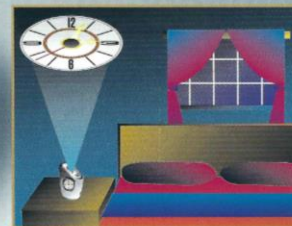

PJ05

11

- **Built-in normal display for daytime viewing**
- **Dependable alarm function**
- **Accurate quartz movement**
- **Long-life halogen bulb**
- **AC adapter included**

Excalibur's Projection Clock provides you with one of the most fascinating ways to tell time!

PEN RADIO

Introducing the most convenient personal stereo ever invented! The Pen Radio scans for your favorite FM station with a single touch, and includes individual ear phones with a long cord for crisp FM sound. Clips easily to your clothing for hands-free enjoyment. Plus, it has a detachable ball point pen. Sounds great—and others need never know you're listening to the radio! Batteries included.

Mind Activator

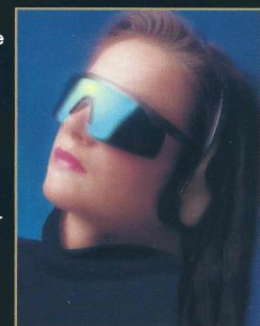

Relax or Rejuvenate with Mind Activator

Unwinding after a hectic day can be tough. And wouldn't you like to clear and recharge your mind during that airplane trip or quick break, in spite of all the irritating distractions? Like a mental massage, Activator will help. Just select one of 24 sessions, put on the included stereo headphones and the special LED sensory glasses. Close your eyes while soothing sounds - such as the ocean's waves - and gentle light patterns calm and refresh you.

Select a program to relax, or select a different one to reinvigorate - perfect for getting past those late-afternoon blahs. Connect Activator to your own personal CD player or home stereo system to add your favorite music. You can even choose to have Activator convert music to a rhythmic light show!

Comes with custom zippered carrying case. Uses 4 AA batteries for complete portability or optional A/C adapter.

23

COLLECTOR'S EDITION

Arguably the most beautiful chess available, this unique combination includes a stunning Maplewood board and some of the finest hand-carved wooden chess pieces in the world!

From Spain comes the artisan-fashioned, inlaid Maplewood chess board, tournament-size and beautifully appointed with marquetry and veneers. Its fine wood is carefully selected for color, uniformity and overall quality. This special selection process creates a chessboard that perfectly matches the pieces while maintaining form, function and beauty. Fine varnish and a special, ultraviolet drying process are the last steps in creating a striking, high-gloss finish that is both glare-resistant and durable.

From India comes the exquisite boxwood set, prized for its beauty and density. Highly polished, tip-resistant pieces are double-weighted for a heft you can feel. Each chess piece is prized boxwood, hand-turned on a lathe and hand-sanded by highly skilled Indian craftsmen. Pieces are then lacquered to a silky smooth finish in deep, rich colors to bring out the details and beauty of the natural wood. A weighted base prevents accidental tip-overs, while green felt bottom cushions and protects the pieces and board.

(2.25" squares • King 3.75" tall)

Talking ELECTRONIC DARTBOARD

25
GAME VARIATIONS!
 Cricket Games
 301
 Challenge Games

Bring the excitement of electronic darts into your home with the Talking Electronic Dart board. Enjoy five groups of games (25 in all) with 1-4 players. The electronic dart board features an extra-wide ring to protect your wall from stray darts, an integrated 2-zone bull's eye, an electronic voice announcer with exciting digital sound effects, an active player indicator, 9 bright displays and a computer control center. Special features include individual dart score displays, variable difficulty settings, double in/double out, bounce-out and delete score. This exciting game comes with six brass soft-tip darts, a replacement soft-tip pack, an A/C adapter and rules of the game.

"Bull's Eye!" Talking Dartboard Uses Family-Safe Darts and Keeps Darts and Score Electronically!

Throw a winner and hear the special sound effects and electronic announcer celebrate! Soft-tip darts, with the same feel as the standard but more dangerous darts, and lots of high-tech features make this both a safe and exciting game for your family room. Keeps score for you automatically on large displays. Full, tournament-size dartboard offers 25 different games.

EXPLORING THE UNIVERSE

NIGHT NAVIGATOR

Find & Identify
Constellations, Stars and
Planets in Just Seconds!

Show family and friends Orion the Hunter, Pegasus the Winged Horse, and 41 other famous constellations—even all the zodiac signs! Night Navigator automatically shows you where to look to find the constellation, star, or even planet you want to see. Plus, Night Navigator quickly identifies constellations and bright stars you spot on your own! It's almost as simple as pointing!

Night Navigator uses a built-in, digital compass and patented micro-chip technology to quickly and easily locate 43 constellations, plus all first magnitude stars and even the visible planets—Venus, Mars, Jupiter and Saturn! Sixteen colorful, illuminated charts label and divide the sky into clear, understandable sections and "connect the dots" to show the classical star "pictures" of heroes and villains. Night Navigator even tells you how high in the sky to look.

Works around the world in the Northern Hemisphere. Battery-powered (uses 2 C and 4 AA batteries) and completely portable, it requires no other equipment. But it's also an invaluable guide for those using binoculars or a telescope.

Platinum
761P

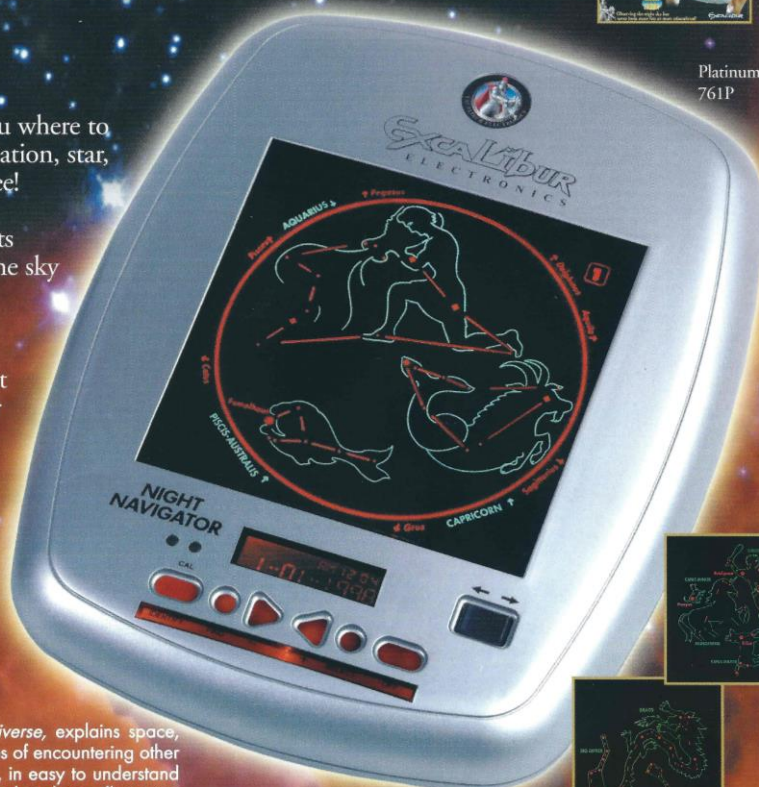

Automatically shows you where to look to find the constellation, star, or planet you want to see!

16 illuminated sky charts orient to your view of the sky to make it easy!

Plus! Quickly identifies constellations and bright stars you notice on your own!

BONUS!

Bonus book, *Navigating the Universe*, explains space, the "Big Bang" theory, the chances of encountering other life forms, and many other topics, in easy to understand terms. Includes 16 pages of full-color photos illustrating every type of object known in the universe!
