

06-1981 [A-1374] Applied Concepts - Odin Edition (Master Reversi game module)
Odin Edition kwam in juni 1981 op de Duitse markt, voor een prijs van DM 298,00. Het is compatibel met de (oude) **Multi Game System (MGS)** en de **Great Game Machine (GGM)**.

Odin Edition **Master Reversi Cartridge**

The **Odin Edition** plays the popular, modern version of Reversi, the game that has captured the imagination of young and old alike in recent years. **Odin** is, like other **Great Game Machine** cartridges, the most powerful of its kind available on the market today. **Odin** has eight levels of play, with thousands of strategies. **Odin** continuously verifies moves made by the player and if the player so chooses, a tournament timer ensures that the proper number of moves is within the allotted time.

ADDITIONAL CARTRIDGES

Machine throughout the game, but receive only information about their own moves — never their opponent's. With the Monitor Edition, Kriegspiel lovers finally have an ever-ready fair and impartial referee.

BORCHEK EDITION Master Checkers

Borchek is the strongest game of checkers on the market today. A patient teacher—a formidable opponent.

The Borchek Edition plays checkers at seven levels of strength and is programmed with many different opening strategies. Borchek, like all Great Game Machine cartridges, allows for handicapping, special board setups for problem solving, gives hints as to best moves, restores the game to a player-chosen previous move if so instructed and gives the player messages about the game in progress.

LAS VEGAS 21 EDITION Master Blackjack

The Las Vegas 21 Master Blackjack cartridge turns The Great Game Machine into the world's most realistic computer blackjack game. Designed to simulate casino conditions, Las Vegas 21 shuffles one to four decks of cards as the player chooses, just like a Las Vegas dealer. One or two players challenge the dealer and are allowed to "bet" any amount from one dollar to \$500. As cards are dealt, each hand is shown on the Game Computer. And the player can have the cards shuffled at any point in the deck. All of these features, combined with a dealer simulated shuffling program, bring more realism to the game than ever before. Las Vegas 21 is perfect for the experienced player who is testing new "systems" and the novice who just enjoys playing the game. Las Vegas 21—you can bet on it.

Engage in Battle With

ODIN

Master Strategist of the
Game called Othello*

Supreme of all the Norse gods of war was ODIN. His tactical cunning, his shrewd maneuvering, his defensive genius, kept him unmatched in the annals of Viking warfare.

Now comes **ODIN**, the Master Strategist of the game called Othello*.

ODIN is the latest game module available from Applied Concepts, Inc., creators of the Modular Game System.

ODIN can play at various strength levels, but at each level his tactical skill provides exciting and rapid play.

ODIN will warn you when impending defeat is ominous, or, if you should be lucky enough to outflank him, congratulate you on your brilliance.

ODIN's features include:

- Random messages that are relevant to the game situation.
- Time clocks for each side.
- Random selection of moves when there are several equally good moves.
- The ability to retract moves.
- The ability to play either side
- The ability to set up specific positions by having the player make moves for both sides.
- An opening library.
- The capacity to "think" on the opponent's time.
- The ability, on request, to enumerate the discs which are flipped by each move.
- Several levels of play, from instantaneous moves to several hours per move
- The ability to suggest a move for the opponent.
- The ability to interrupt a long move calculation at any time
- The ability to generate tones, if desired by the player, to signify specific events.

If you have a competitive nature and love a great mental encounter, engage in battle with **ODIN**, Master Strategist of the game called Othello*.
