# KASPAROV VIRTUOSO™

Art. No. 411

**Now even stronger – this elegant wooden chess computer with a strong new program is a beautiful accessory for your home and is a challenging opponent!**

- Classic styling. Carefully crafted to a luxury finish with carved wooden pieces.
- For beginners up to serious club level players.
- Sensory chessboard registers each move, the powerful 16K program plays the chess.
- Choose from 64 levels of playing strength, including casual, tournament, speed chess, Blitz, problem solving up to mate-in-ten, plus a handicap level for beginners.
- Suggests moves, shows how it is thinking, allows take-back and set up of special positions.
- No unsightly cables needed – one set of alkaline batteries gives 150 hours of play.

# KASPAROV GK2000™

Art. No. 272

**Top of the range, advanced technology, with impressive, strong program. Outstanding features plus full info LCD.**

- Sleek cabinet, a chess computer for enthusiasts and club players.
- LCD shows you how the computer is thinking, time for both sides, take-back, problem solving, main continuation and more.
- With an estimated 2100 Elo performance, this very high-speed program is suitable for around 96% of players.
- 64 levels including Blitz, tournament and beginner playing levels.
- Shows its intended move and position evaluation; take-back up to 34 ply.

## CHESS GROUP 3

### **Affordable luxury and ease of play**

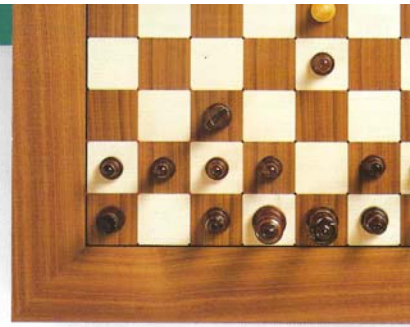

At the top of the range, Saitek offers six products in which beauty, luxury and strength combine with superlative features for those who want only the best.

**Blitz** and **Prisma** are ideal for the chess enthusiast. **Prisma's** integrated LCD chessboard and 11-character info line offer a wealth of information feedback and analysis. **Blitz**, with its revolutionary control dials, LEDs on every square, and the extra-large chessboard with Automatic Piece Sensor™, is designed for speed and ease of play.

**Turbo King** and **Corona** are sensibly-priced strong computers, the wood finish of **Corona** appealing to the traditional buyer.

The beautiful hand-crafted luxury of **Galileo** and **Renaissance** offers unparalleled ease of play through the patented Blitz Board™ and **Renaissance's** quad-lamp move indication system. A wealth of information feedback is available, with modules to enhance performance.

From the quality of the hand-finishing to the meticulous programming — nothing has been spared to achieve the perfect chess computer for the discerning player.

## Affordable luxury and ease of play

(photo copyright © by [www.schaakcomputers.nl](http://www.schaakcomputers.nl))

# KASPAROV PRISMA™

Art. No. 281

**Exciting chess computer, with full LCD chessboard giving a wealth of information feedback, offers an exceptional range of features coupled with a strong 32K program for speedy problem-solving.**

- 64 levels, including handicap levels, tournament and problem-solving.
- LCD chessboard allows you to review the game, analyze past and proposed moves, watch the computer play against itself, offer hints and other info. Take-backs up to a whole game become child's play — there are even express take-back and replay features.
- 11-character LCD info line gives live feedback on elapsed and remaining times for both black and white, depth of search, mode, score and Check/Draw/Mate status.

# KASPAROV BLITZ™

Art. No. 291

**Sophisticated design with 64 LEDs, revolutionary Automatic Piece Sensor™ (APS) and unique Scan-Logic control system.**

- Patented Automatic Piece Sensor™ follows even the fastest moves — even in Blitz captures — no pressure needed.
- 64 LEDs, one on every square, make all the moves so easy to see.
- Elegant Scan-Logic system controls all functions through just 2 dials, with an 11-character LCD info line, giving time for both sides, position evaluation, move under consideration and problem-solving up to mate-in-16.
- 64 levels, from handicap levels through tournament and problem-solving, even including a Blitz level,

make this computer ideal for all players from beginners up to regular Club players and Blitz enthusiasts.

- Powerful 32K program on a high speed advanced processor makes this our fastest-ever problem-solver.

## Saitek Kasparov Prisma & Blitz

(photo copyright © by [www.schaakcomputers.nl](http://www.schaakcomputers.nl))

# KASPAROV TURBO KING™

Art. No. 320

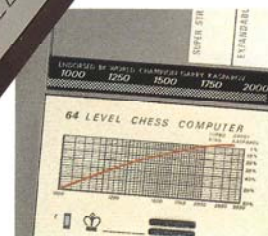

**Strong program offers aggressive openings and superb positional knowledge. Especially suited to chess enthusiasts and club players.**

- An irresistible combination of power, features and value! Turbo King's 72K program and high speed microprocessor establish it among the world's best. Rated at 2150, it is capable of beating over 98% of all

chess players.

- The Automatic Transposition Manager looks after Turbo King's twin libraries: the giant Openings Book and the easy-to-use User Programmable Library, which stores openings, entire games, or positions.
- Turbo King's LCD shows time for both sides and displays other chess information.

- The 3-color LEDs help your chess analysis. They show automatically the main continuation, its evaluation of the position and how far ahead it is thinking.

# KASPAROV CORONA™

Art. No. 421

**Don't let its beauty and elegance fool you! Strong chess computer with aggressive openings and excellent positional knowledge.**

- Automatic sensing of pieces, no pressure required.
  - Hand-crafted luxury of real wood finish, with elegant 2.5 inch (6.5 cm) wooden king.
- LED on each square, plus automatic piece sensing, makes Corona a delight to play.
- High-speed, strong program with 64 levels beats over 98% of chess players. Yet its handicap levels are ideal for beginners!
- Stores up to 64 games for replay later.
- Advanced LCD gives complete information including: time for both sides, position evaluation, main continuation, depth of search and much more!

## Saitek Kasparov Turbo King & Corona

# KASPAROV GALILEO™

Art. No. 511

## Beauty, luxury and strength. Incorporating the ultra-convenient Blitz Board™!

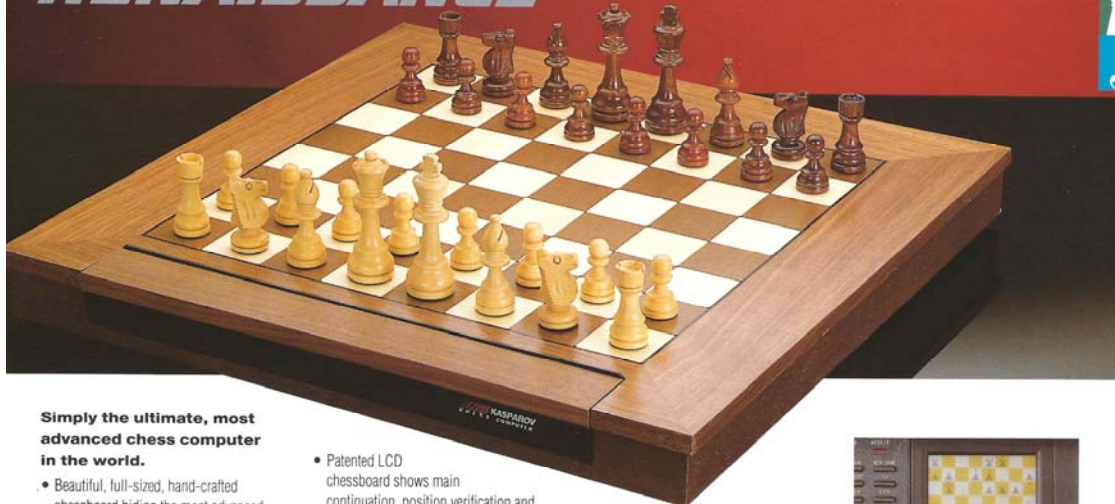

- Full-sized and hand-made to the highest standards. The crafted wooden pieces (with 3.5 inch tall king) are sensed automatically.
- Blitz Board means pieces can be captured with one sweep of the hand — very professional!
- OSA (Open System Architecture) means it can connect to a computer for a wealth of information.
- Easy to use. Galileo recognizes new games automatically and lets you take back any number of moves, guiding you through each one.
- Library function enables you to store and replay games. Watch Galileo analyze alternative play and evaluate the position.
- 32 skill levels, including special levels for tournament play, speed chess, analysis and problem solving up to mate-in-20. It even has beginner levels!

- Never out of date. Add in new programs in OSA modules.

# KASPAROV RENAISSANCE™

Art. No. 512

## Simply the ultimate, most advanced chess computer in the world.

- Beautiful, full-sized, hand-crafted chessboard hiding the most advanced chess computer in the world.
- 81 LED lamps (one on each corner of each square) show how to move pieces (Quad-Lamp Move-Display system).
- Incorporates the patented Blitz Board™ system and full remote sensors.

- Patented LCD chessboard shows main continuation, position verification and set up.
- Full OSA (Open Systems Architecture) means it connects to a Personal Computer for a wealth of information.
- Stores games for replay later, on the board or on the LCD screen.
- 32 skill levels including special levels

for tournament play, speed chess, analysis and problem solving up to mate-in-20. It even has beginner levels!

- Never out of date. Add in new programs in OSA modules.

## MODULES

Saitek now offers a whole range of modules and upgrade kits to enhance the performance of its top-end computers. The modules are specially-designed to fit Renaissance and Galileo. The upgrade kits can be installed by the user, with the help of the clear instructions supplied with each kit. See the features table (page 26) for compatibility.

### Maestro D Module

- Increases playing strength to 2,100 +Elo
- 4,6 and 10 MHz versions available
- 100,000 opening moves pre-programmed
- Adds 24 additional levels to existing 32 levels
- Automatic Transposition Manager

### Analyst D Module

- Increases playing strength to 2,100 - 2,200 Elo
- 4,6 and 8 MHz versions available
- Huge 100,000 move openings library
- Amazing LCD displays wealth of information including: time elapsed, depth of search, main continuation, score evaluation and much, much more

### Endgame ROM

- Programming breakthrough. The fruits of hundreds of computing hours, available in seconds
- Perfect K-p-K endgame, and K-p-K-p (opposing pawns) endgame
- Suits Simultano, Corona, Turbo King, Stratos, Maestro and Analyst

### MA3.1 Upgrade Kit (for older Corona and Turbo King)

- More aggressive openings
- Even better positional knowledge
- At least 100 Elo additional strength

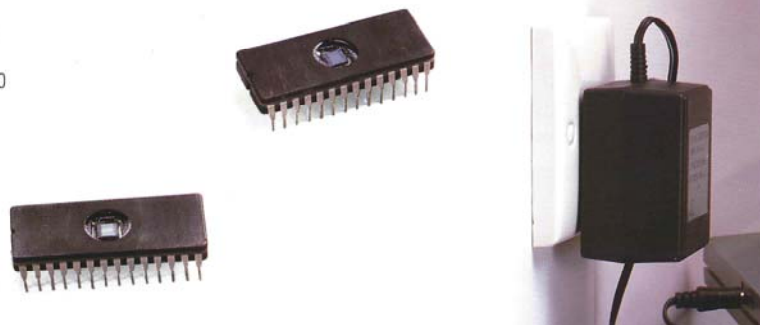

### Cables to connect Galileo and Renaissance to Personal Computers

**Adapter I** Universal model for computers equipped with RS-232C serial interfaces, Atari ST

**Adapter II** Apple II series

**Adapter III** IBM PC series, and compatibles

**Adapter IV** Commodore C-64, C-128, VIC-20

## INTELLIGENT GAMES

World leaders in Intelligent Games, Saitek offers a range of products in bridge, checkers, backgammon, and blackjack; and the list is expanding!

In bridge, the elegant lap-top **Pro Bridge 500** now complements the very popular portable **Pro Bridge 210**: between them, these two products cater to the very wide demands of the ever-growing numbers of keen bridge players around the world.

The **backgammon** range has been strengthened with the introduction of both a table-top and a hand-held LCD game, both with the award-winning program from the 1989 Computer Olympiad – this makes these the strongest dedicated backgammon computers in the world. Features, strength and ease of operation are way ahead of the competition.

**Pro Blackjack** is an exciting development for Saitek, applying the Saitek principle in training the user to play better, through hints from the dealer and card counting techniques.

## BRIDGE

Bridge attracts a huge following in many countries around the world. The success of **Pro Bridge 210** led to a demand from consumers and distributors for a strong bridge computer which could offer a range of systems and conventions. So the Saitek bridge line now comprises two very distinct products.

For beginners and casual players, there is the handy portable Pro Bridge 210, which bids Standard American 5 card majors. For the more experienced player and the real bridge enthusiast, **Pro Bridge 500** offers a choice of the five major bidding systems, plus many well-known conventions, while the 10 levels of skill range from beginner to club standard. Without doubt, this is one of the best bridge computers on the market today.

## PRO BRIDGE 210™

Art. No. 610B

**The compact easy-to-use bridge computer that entertains while it coaches. Ideal for the beginner and casual player.**

- New high-powered 16K program, plays Standard American 5 card majors.
- 8 levels of play allow you to select skill and bidding aggressiveness.
- Compact design slips into bag or briefcase so you can take it anywhere.
- Shows your own and dummy's hands clearly; scores, shuffles and deals automatically.
- Enclosed Introduction to Bridge includes all the rules of the game.

## Saitek Pro Bridge 210

(photo copyright © by [www.schaakcomputers.nl](http://www.schaakcomputers.nl))

# PRO BRIDGE 500™ Art. No. 620

**Here is THE bridge computer for the serious player wanting to play a better game of bridge.**

- The 128K program challenges even club players, while the integrated coaching features help beginners develop skills and expertise.
  - Plays all major bridge systems — Standard American 4 and 5 card majors, ACOL, French 5 card majors and Precision Club.
  - Add your own bidding conventions to those built into the system — the Pro Bridge 500 ensures they are compatible. You can even set up NS and EW to play different conventions.
  - Plays Rubber and Duplicate bridge (Teams of Four).
  - 10 levels of skill to choose, from beginner to club standard.
  - Choose your deal: shuffled or from the deal library (9,999,999 deals!) or create a deal yourself.
  - Gives hints on bidding or play, allows takeback of a bid or card.
  - Will act as a referee between two or more human players.
- Menu options are displayed on the 32-character LCD screen while additional LCD screens show your hand and dummy, or all 4 hands. Review a game with all hands on view, or put the computer into Autoplay mode, watch it play against itself and pick up ideas to improve your game.

## Saitek Pro Bridge 500

## BACKGAMMON

**The world's strongest dedicated backgammon computer — with 16K award-winning program of the 1989 Computer Olympiad — available in a handsome table-top game or in an ultra-convenient portable LCD version.**

- Quick response program keeps you on your toes right to the end of a game.
- Match your opponent's strength and playing style to yours — or challenge a stronger player: 30 combinations of strength and aggressiveness available.
- Computer as coach — suggests moves, allows take-back, rejects illegal moves and plays against itself.
- Info-packed LCD — evaluates the position and the chance of a blot being hit, gives the score and recommends doubling.
- Not just one but 4 games to play: Backgammon, Jacquet, Tric Trac and Moultezim (plus Plakoto in the table-top version) — and it knows all the rules.
- Strength, versatility and fun for players of all levels.
- Takes 4xAAA alkaline batteries (not supplied) for 150 hours' play.

## ELECTRONIC CHAMPION BACKGAMMON™

Art. No. 681

## CHAMPION BACKGAMMON™

Art. No. 682

**Easy to use and fun to play, this quick response computer makes a worthy opponent or acts as referee while you play your friends.**

- Pressure-sensory board registers moves automatically while LEDs show them clearly.
- Quick response program for an exciting game.
- 9 levels of skill including a choice of defensive or aggressive play from the computer.
- Acts as coach, offering hints and allowing takeback or learn by watching the computer play against itself.
- LCD shows score and doubling.

\*1989 Computer Olympiad.

## SENSORY BACKGAMMON™

Art. No. 680

# Electronic Champion Backgammon Champion Backgammon & Sensory Backgammon

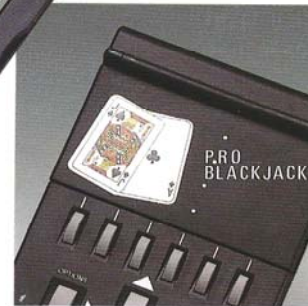

(photo copyright © by www.schaakcomputers.nl)

# PRO BLACKJACK™

Art. No. 683

A pocket-sized LCD blackjack computer which shows you how to win and have fun! Following the winning play strategy and hints, a player has a good chance of coming out on top.

- Now you don't have to go to Las Vegas to feel all the excitement of a casino on the Strip.
- Gives advice on betting: hit, stand, split, insurance and double down; even introduces you to card counting to improve your skills.
- Choice of 1 or 6 decks of cards and of 1 to 4 human players against the dealer (the computer).
- You won't lose your shirt on this! Bets between \$10 and the house limit of \$1,000.
- In Autoplay mode you can prove to yourself that by following a card counting system the odds are stacked in your favor.
