

08-1993 [O-4901] Saitek - Sensor Alarm Clocks

Sensor Alarm Clocks. Onder deze verzamelnaam verschenen er verschillende design klokjes.

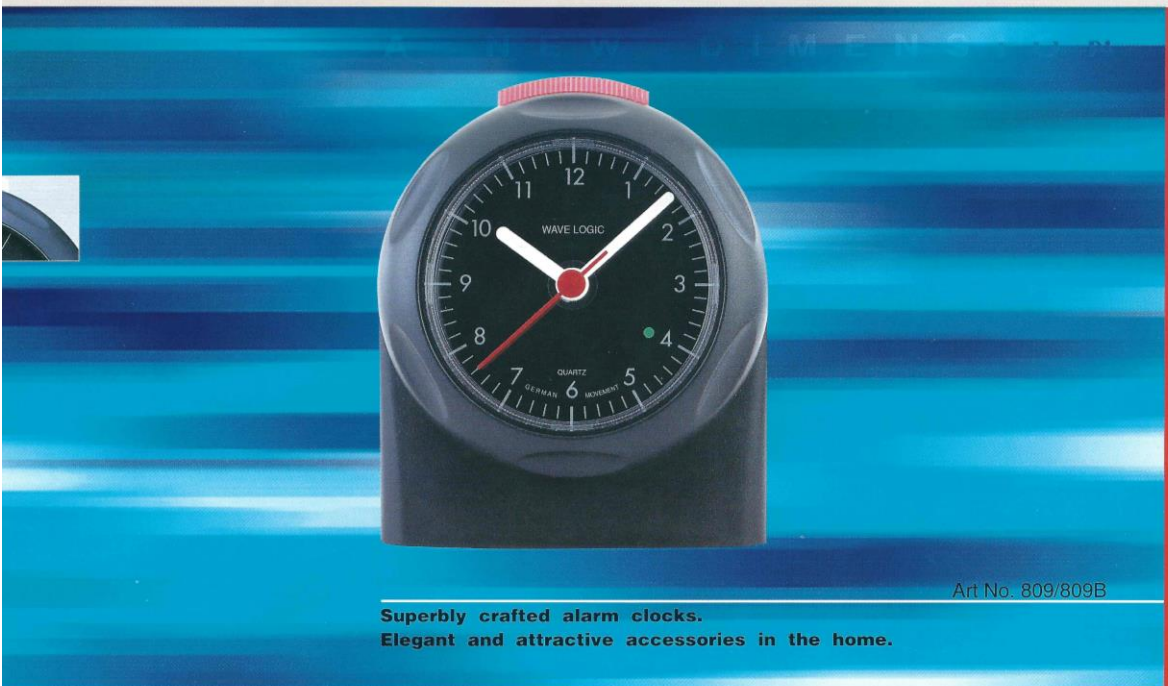

The advertisement features a central graphic with a blue and white background. At the top, the text "Sensor Alarm Clocks" is displayed, with "Sensor" in a bold, black font and "Alarm Clocks" in a regular, black font. The word "Sensor" is partially enclosed by a circular graphic of blue dashed lines. Below this, the phrase "A NEW DIMENSION" is written in a white, sans-serif font across a dark blue horizontal band. The background consists of several horizontal bands of varying shades of blue and white, creating a sense of depth and movement. Four small, square images of different clock faces are scattered across the blue bands: one in the top right showing a red light and the number 3, one in the center showing a close-up of a clock face, one in the bottom left showing a digital display with "VSS20" and the number 0, and one in the bottom right showing a close-up of a clock face with the number 6. At the bottom of the advertisement, the Saitek logo is displayed, consisting of a stylized red and black graphic followed by the word "Saitek" in a bold, black font. Below the logo, the text "Saitek Sensor Alarm Clocks" is written in a large, blue, serif font. At the very bottom, a small line of text reads "(photo copyright © by <http://www.schaakcomputers.nl/>) (600 dpi)".

- 4-stage alarm gets progressively louder each time it rings.
- Battery: 1 AA/AM3/R6 (not supplied).
- 12-month worldwide guarantee.
- German movement.

VSS20

Quartz Alarm with voice activated snooze system.

Art No. 806

Art No. 810

Falling asleep has never felt so good!

Sound Asleep

Be soothed by sleep-inducing sounds that lull you into a gentle sleep. Wake up refreshed to a dawn chorus!

- Fall asleep to one of 3 sounds:
 - Mountain Stream
 - Tropical Surf
 - Night Train.
- Wake up to a dawn chorus or a conventional alarm buzzer.
- Unique alarm setting: simply rotate dial around clock face.
 - Activate snooze: alarm goes off again after 5 minutes.
 - High quality speakers give clear, crisp sound: can also be used with earphones (not supplied).
- Sounds gradually turn off after 30 minutes or on continuously.
 - German clock movement ensures reliability.
 - Battery or mains operated.
