C BRIDGE CHALLENGER® (Model 7017)
 Play bridge even if you're alone! The computer bids and plays one, two, three or all four hands—just like a human player(s). Computer can deal cards randomly or select from one of 9,999 preprogrammed deals. Uses 4 "C" batteries or AC adaptor (both not included).

DELUXE BRIDGE CHALLENGER® (Model 7016—not shown)

All features and bidding/playing ability of the basic BRIDGE CHALLENGER® plus:
 1) Enlarged LCD display that allows you to constantly view the dummy hand during play.
 2) Optical scanner feature allows you to use custom-coded playing cards (included). This feature is especially handy if more than one human player is participating and you want to use real playing cards instead of the display window.

D GIN AND CRIBBAGE CHALLENGER (Model 7012)

The ideal companion for the GIN or CRIBBAGE enthusiast. Communicates in any one of three languages—press a button to select English, German or French. Use custom playing cards (included) or let the computer generate random deals for you. 13 x 8.5 x 1 inches.

PHANTOM

H

H PHANTOM (Model 6100)

The ultimate chess opponent! The PHANTOM computer plays against you and actually MOVES ITS OWN PIECES! A certified rating of 2100 by the U.S. CHESS FEDERATION, makes the PHANTOM superior to over 95% of the world's chess players. A terrific chess opponent for all levels of players. Sensory playing surface records your moves. 24 selectable skill levels with an additional 8 mate-solving levels. Lower skill levels for beginners to intermediate players. Built-in LCD display shows move time for each player, how many moves ahead the PHANTOM is calculating, and how the PHANTOM scores the current board position. Set up mid-game positions or mate problems for the PHANTOM to solve. For analysis, the PHANTOM will replay the game you just finished, moving pieces for both sides. PHANTOM will suggest moves for you to make with its special hint feature. You can even watch PHANTOM play a game against itself!

I DESIGNER 1500 "CHESS COACH" (Model 6111)

For ages 7 to adult. CHESS COACH teaches you how to play chess! Includes 50-minute educational VHS tape produced by the U.S. CHESS FEDERATION that teaches you the rules of chess, how the pieces move, and strategy tips from chess masters on how to improve your game. The DESIGNER 1500 computer will suggest moves for you to make, allow you to take back your last move—you can even watch the computer play against itself!

J GAMBIT (Model 6084)

Our basic model for beginner to intermediate players. Storage compartment for pieces.

K ELDORADO (Model 6119)

Full-size board, cherry wood look. Elegant on any end table. For beginner to 'occasional' players.

L MICRO CHESS (Model 6096)

Play chess wherever you travel—weighs only 6 ounces! Selectable skill levels for beginners or casual players. Raised keys for easy entry of your moves. Easy-to-read LCD (liquid crystal display) shows computer's moves. Includes carrying case with built-in magnetic board and pieces. Memory-save feature.

M MICRO BACKGAMMON (Model 8004)

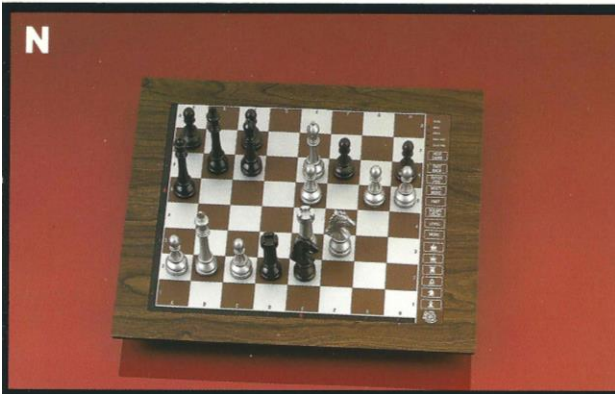

Pocket-size backgammon computer with 8 levels of skill. Computer can generate dice rolls internally and display them, or you may roll actual dice and enter the die values. Verify location of pieces at the beginning or during a game—a great feature for beginners! Memory-save feature allows you to store an unfinished game to be resumed at a later time. Easy-to-read LCD (liquid crystal display) shows dice rolls and move entries.

FUN FOR THE WHOLE FAMILY

CHESTER CHALLENGER™

"With my help,
you will be an expert
in no time!"

YOUR INTELLIGENT TALKING COMPUTER CHESS OPPONENT

When he talks, you will be both amused and probably abused by his 500-word vocabulary. Even though CHESTER CHALLENGER™ may sometimes seem to be letting you win, he is probably preparing a crushing attack because he is an expert chess player at his top level – but you can set his level to as low as rank beginner. CHESTER CHALLENGER™ received his good looks from the Italian Design Studio, "Franco Rocco." He obtained his brains from the American engineers at FIDELITY ELECTRONICS and his body parts come from around the world. But his personality is all his own, and you will most likely learn to both love and hate...CHESTER CHALLENGER™

SAMPLE PHRASES

CHARACTER MODE:

"You really stretched my circuits on that game!"

"I'd resign, too, in that mess!"

"This game's giving me a headache."

COACH MODE:

"Remember, the Bishop moves diagonally.

He always stays on the same color square."

"You don't have to feel bad about losing to me, I won't tell anyone."

MOVE ASSIST MODE:

"Pawn on e2 to e4.

"Level A1. I will average 5 seconds per move."

DEMO LEVEL:

"My name is CHESTER CHALLENGER." I'm a chess playing computer. How about a nice game of chess?"

"First, you have to tell me what piece you want to move. Tilt the piece and use the edge of the piece to press on its square."

"With my help, you'll be an expert in no time!"
