FIDELITY ELECTRONICS welcomes you to the exciting world of computerized board games. We have been serving the market for over 14 years now, and we are very proud of our 1992 product offerings, which we present to you in this Product Guide. We have separated our product line into three distinct categories, each targeting a special consumer segment. Please see the brief introduction to each product, and get ready to be challenged by the best... FIDELITY ELECTRONICS!

Our PREMIUM SERIES is directed at the expert player or avid chess enthusiast looking for the top-of-the-line in technology and style. This series contains the most elegant wood units, the strongest portable chess units available in the market today, and the most technically advanced travel size chess computers.

Our CHALLENGER SERIES is aimed at the serious player looking for something special. This series features the Chess Challengers, Bridge Challengers, and Chesster Challengers. Our Challenger Series is certain to contain everything you are looking for whether it is a strong chess computer, a bridge program or a human synthesized voice model.

Our SMART GAME SERIES contains something for everyone and appeals to the novice player. Choose from chess, backgammon and many other fun and entertaining hand-held games. There are games for all ages in this series, including some of our most popular sellers ever!

We are certain one of these will adhere to everything you are looking for in a computerized board game.

PREMIUM SERIES

1

For The Expert Player

ELITE PREMIERE (MODEL 6131)

Two computers for the price of one! The World Champion Vancouver Program by Richard Lang along with the Master Rated 2265 FIDELITY Program in a handsome hand carved wooden set, flip the switch to select. Auto sensory playing surface, 64 board LEDs, dual display windows, 33 levels of play, and running at 16 Mghz.

This series is designed for chess experts, or those aspiring to become experts with the help of a "Coach in the Corner." There is a premium choice available to you ... and the choice is FIDELITY ELECTRONICS!

MASTER 2400 (MODEL 6130)

The latest in state-of-the-art. A RISC technology enhanced program is featured in a new black housing. Official U.S.C.F. tournament colors - green and buff. 128K RAM, running at 12 Mghz, includes AC adaptor. All packaged in a carrying case.

MASTER 2325 (MODEL 6129)

FIDELITY's U.S.C.F. Master Rated 2325 Program in the same new housing as the Master 2400. 33 Levels of play, 64K ROM and 544K RAM, running at 20 Mghz, strong tournament level opening book, unique rotating display option, AC adaptor included. All packaged in a carrying case.

MASTER 2265 (MODEL 6113)

The original Master. FIDELITY's U.S.C.F. Certified 2265 Master Program running at 16 Mghz, full replay function, book opening library with over 28,000 moves, 64K ROM and 80K RAM, and a large LCD display.

TRAVEL MASTER (MODEL 6122)

The world's strongest pocket chess computer beats 98% of all chess players at its top level! Slim line design, sensory touch board opens up for convenience, memory-save for up to one month, take-back ability up to 32 moves (plies), problem mode for position set-up, chess clock and move display window.

Fidelity Product Guide 1992

NB: Master 2400 - Model 6130 never released!

BRIDGE CHALLENGER® (MODEL 7017)

Our original bridge computer bids and plays one, two, three or all four hands. The computer can deal cards randomly or select from one of 99,999 preprogrammed deals. Uses Standard American bidding system along with popular conventions including Stayman and Blackwood. It can even suggest bids and plays for beginner players.

**DELUXE BRIDGE CHALLENGER® (MODEL 7016)**

The deluxe model contains all the features, bidding and playing abilities of our BRIDGE CHALLENGER® with a few added extras. Enlarged LCD window to constantly view the dummy hand during play and optical scanner to use custom coded playing cards (included), handy if more than one human player and you want to actually deal out the cards.

**EURO BRIDGE CHALLENGER® (MODEL 7018)**

This model contains the European preferred ACOL bidding system as well as the features, bidding and playing abilities of the BRIDGE CHALLENGER® including the enlarged LCD window of the DELUXE BRIDGE CHALLENGER® for constant viewing of the dummy hand. This model is certain to take both the European and American markets by storm.

SMART GAME SERIES

For Pleasure And The Novice Player

This series contains some of our most popular sellers and some which are destined to become best sellers. Choose any unit and be ready to ... get smart and have some fun!

MIAMI (MODEL 6134)

A game as hot as the city it's named after... MIAMI! Sleek new look in a full-size board with vibrant colors reminiscent of Miami. 64 Levels of play, LCD window, sensory touch board, memory-save feature, and a take-back feature. The MIAMI is destined to be one of our best sellers in 1992!

LITTLE CHESSTER (MODEL 6125)

You will find many full-size features in this model, but not at a full size price. LITTLE CHESSTER is loaded with over 345 phrases, selectable skill levels, special beginner level, memory-save feature, hint feature, sensory board, take-back feature and he can even play a game against himself.

Coming soon is LITTLE KISHON our version of LITTLE CHESSTER with German language.

MARAUDER (MODEL 6121)

This high-tech compact model has a full-size chess board with a sensory playing surface which automatically senses your moves. 32 Playing levels ideal for beginner up to experienced players including 4 problem-solving levels. Memory-save feature allows for interrupted games to be continued at a later time. 2 Ply take-back feature, storing of move sequences possible, suggest moves, random-move generator built in, library of 100 book openings contained in its memory, stores positions for chess problems and position analysis and much more! This little model has an elegance all its own.

Fidelity Product Guide 1992

(Source: Fidelity Electronics International – Miami Florida USA) (photo copyright © by <http://www.schaakcomputers.nl/>) (600 dpi)

GENESIS (MODEL 6108)

This model features the elegant look of walnut with a high-tech silver chess board. Large chess pieces with storage pouch, 16 Levels of play, selectable book openings, hint feature, take-back feature and memory-save feature.

**ELDORADO (MODEL 6119)**

With a cherry wood look, this full-size board is attractive on any endtable. It is perfect for beginners up to occasional players. 8 Levels of play, a sensory playing surface, 100 book openings and so much more. This little model has an elegance all its own.

**CHESS PAL (MODEL 6116)**

Many selectable skill levels to choose from and a keyboard to enter your moves. This model is perfect for beginners up to casual players. Memory-save feature for unfinished games, and the warning of pieces in danger of being captured makes this truly a pal for any chess player.

**GAMMON PAL (MODEL 8006)**

For all backgammon enthusiasts! Beginners up to advanced players, 8 selectable skill levels, memory-save and internal doubling cube. You can use real dice or have the computer internally roll dice for both players. You can even watch this pal play a game against itself!

Fidelity Product Guide 1992

(Source: Fidelity Electronics International – Miami Florida USA) (photo copyright © by <http://www.schaakcomputers.nl/>) (600 dpi)

Whatever your game is ... your game is here! Our models range from full size boards all the way down to micro size. Choose from chess, backgammon or our addictive palm size games that will challenge your mind and reflexes.

TINY CHESS (MODEL 6118)

A portable chess computer that lets you play anywhere! Our deluxe pocket model has a LCD display window which shows the computer's moves, time, score and move analysis at your request. It features 32 levels of play for beginner up to advanced players with 4 problem solving levels. This advanced level program has features of our more sophisticated models including a sensory playing surface which automatically records your moves and displays the computer's moves. Computer lets you take back moves. You can even resume an interrupted game at a later time thanks to its memory-save ability which stores unfinished games. There is a storage area alongside of the playing surface for captured men. Snap-on storage cover.

MICRO CHESS (MODEL 6096)

Everything fits into your pocket! This model weighs only 6 ounces. Now you can play chess anywhere you travel. Selectable skill levels, perfect for beginners to intermediate players, unique wallet design with foldout board and magnetic pieces. You can even store an unfinished game in memory-save.

MICRO BACKGAMMON (MODEL 8004)

You can play backgammon anywhere you travel! This pocket size backgammon computer also features the unique wallet design with the foldout built-in board and magnetic backgammon pieces. 8 Levels of playing difficulty from beginner to advanced. The computer displays internal dice roll for both players, or you can use your own dice if you prefer. You can even resume a game at a later time with its memory save feature.

Mephisto®

BE CHALLENGED BY THE CHAMPIONS

MEPHISTO Chess Computers have clearly provided leadership in commercial chess computing with eight world champion titles in a row.

Fidelity carries MEPHISTO's World Champion chess computers exclusively in the U.S.

The **MEPHISTO-VANCOUVER** 1991 World Champion has set the new standard again. 16 or 32 Bit microprocessor, 256 bytes program memory, famous Richard Lang program, Opening Book with 150,000 half moves, 17,000 variations, 6 different books, special adjustable value of pieces feature, 32-character graphic display make the Vancouver line the choice of the expert. Available in the proven BAVARIA, MUNICH, EXCLUSIVE, and MODULAR chessboards.

The **MUNICH VANCOUVER** features a full-size, regulation tournament board with 2" squares, all solid wood construction board and pieces, auto-sensory, and an interchangeable modular so your MEPHISTO board can always be equipped with the latest concept program modules.

The **EXCLUSIVE VANCOUVER**: medium-size tournament board with 1½" squares, same solid all wood set as the Munich, it also accepts modules, and is the most affordable MEPHISTO wood auto-sensory board.

NEW IN 1992: The MEPHISTO MILANO

The MILANO is MEPHISTO's novel lap top model, perfect for those on the go! Snap-on cover comes equipped with score pad and flat magnetic pieces for travelling (black, silver and grey pieces for at home), a top chess program for beginners up to tournament players, sensory board with 32-character graphic display, memory save and much more!

Call your **FIDELITY** sales representative today for a copy of the **MEPHISTO** line of Champion Chess Computers.
