

08-1980 [E-4126] Fidelity - **Card Challenger**

Fidelity model: CDC. Wie had dat gedacht. Een kaartcomputer met info-display en nog modulair uitgevoerd ook! Het speelt verschillende varianten van Gin Rummy, en daarnaast ook nog eens (via losse modules), Skat, Cribbage, Hearts, en Piquet. Later zou Card Challenger nog uitgebreid worden met de spelmodulen; Poker, Tarot, Euchre, Pinochle, Scopon, Belote, en Solo Whist. Maar of die spelmodulen ook echt op de markt zijn gekomen is voor mij een open vraag. Wie het weet mag het zeggen ...

Card Challenger 'with Cribbage cartridge'!

**THE NEWEST CHALLENGER® – RIGHT OUT OF TOMORROW!
FIDELITY BRINGS IT TO YOU TODAY!**

A truly automatic, computerized card-playing opponent that plays your kind of game. CARD CHALLENGER® will take you on in a game of Gin Rummy, or plug in a different game cartridge* for another kind of game. Uses real cards, so it plays much like a human opponent.

CARD CHALLENGER® uses a built-in optical scanner to read the cards dealt to it. It has a built-in card storage compartment and a convenient card holder for two-player games; a 16-character alpha-numeric display by which CARD CHALLENGER® communicates with the player and an audible beep tone; it keeps score, and will even generate computer dealt hands if you don't want to use real cards.

The built-in Gin Rummy features allow knocking at any time, and selection among the following game variations: Hollywood, Oklahoma, and Gin Only. Other features include durable plastic housing and 100% solid state.

*Available additional game cartridges are: Skat, Cribbage, Hearts, and Piquet. Future cartridges will include: Poker, Tarot, Euchre, Pinochle, Scopon, Belote, and Solo Whist. Each game cartridge is complete with instruction booklet for playing that game with CARD CHALLENGER®. Size (approx.): 9 x 8 x 3 inches.
